Traveling costs

- **By car**
  Services for one day: For each driven kilometer we will charge 1,55 €. The distance will be calculated with a route planning software. In this case, the mileage allowance includes all costs related to driving time and
  vehicular costs.

  Additional service technicians will be charged with associated hourly rates.

  In case of services for **more than one day** we will charge the kilometers between the hotel accommodation and the place of action with a rate of **1,55 €**

- **By train**
  For train journeys we will charge first ticket class with all related additional fees and traveling costs from the destination railway station to our customer`s location.

- **By flight**
  Charging the related flight costs on expenses.

The traveling costs include the costs for outward flight and return flight and all additional and necessary fares.

Daily rates

In case of services for more than one day that will take place within the Federal Republic of Germany we will charge a flat rate (overnight stay included) of

95,00 Euro

In case of higher costs than 65 Euro for the overnight stay, we will charge the hotel costs separately.
For our services that will take place in all other countries the amount of the daily rates will be calculated according to the current German tax law policy, overnight costs added.

Our prices are exclusive of VAT.
